News Letter - December 2012

With the beginning of winter months, we have become excessively busy. It appears that we will cross 5000 mark this year. The OPD load is also high - average OPD is now in the tune of 100 and once it crossed 150 mark also. Retina work has also increased and we are doing about 20-25 retina surgeries every month at this moment. With the posterior vitrectomy machine installed now, this may increase further. The cornea specialist has joined from 17th Dec. and she is also busy. We are getting 10-15 cornea patients daily. She has already done four transplants in two weeks after joining. Dr. Rohan has decided to take care of glaucoma work as there are many glaucoma patients also coming to us. This speciality work also demands more manpower and time both. We were trying to prepare for five thousand surgeries BUT we did not envisage such a rapid rise in speciality work.

All the staff were forced to work long hours in last two weeks partly because of the holiday leaves of some of the staff and partly because of the increased workload. We fully appreciate that it is not a good idea to ask staff to work long hours for long. We have decided to restrict the number of surgeries to a more manageable level. May be, when the competence levels will grow, we will be able to manage the high workload with the same staff BUT for now, we have put a restriction on ourselves.

Dr. Kamini Patel has decided to leave us as she is getting married, we will have to find another Ophthalmologist. If we don't get a replacement in time, that will also affect the output to some extent.

FCRA one time permission becoming available was a big relief. After a long waiting of more than two years, finally our patience and efforts have yielded desired result. Many known and unknown people tried to help us in this endeavour and we sincerely appreciate the support received from everybody.

A get to gather of all the handicapped people of mandvi taluka was organised on 3rd Dec. on the occasion of world handicapped day. 95 handicapped individuals attended the same. They were informed about what all benefits they can avail and what they can do. The enthusiasm was high and we ended the day with a high spirit.

Shri Omprakashji Tuteja, our donor and well wisher distributed ration, sarees etc. to 500 families and sweets 50 families - all poor and needy people - in the area during the month.

5th executive committee meeting took place on 2nd Dec. - all the members participated actively in the discussion. Some good suggestions have also come from members and we will try to implement them at appropriate time.

Management team from Ranchi came down to Mandvi for a 3 days "vision building exercise". They really had eye opening experience over three days when they visited diagnostic eye camp, Netrang - Jhankhav satellite activities and CBR field work. The sessions conducted by Dr. Uday, Dr. Rohan and Mr. Nikhil Mehta gave them a good insight into what eye care is, what is the need - over all and for their area, what is the potential of service provision in their area, primary eye care and vision centre concepts were discussed in detail and in the end an action plan was also prepared for coming five years for their hospital.

A pre medical student Ms. Natasha Kapoor from UK had come to Mandvi for 10 days elective and she was surprised to see the amount of work, the span of activities and also the needs of the poor people. While leaving she said that she got more than what she had expected from her stay here in Mandvi.

Our team was instrumental in organising the "Planning of refractive error services" on behalf of Vision 2020 : Right to Sight Gujarat Chapter in Surat on 16th Dec. It was well attended - 75 delegates were there. the deliberations will be useful to the participants in planning refractive error services in their area. Dr. Praveen - head of community ophthalmology at AIIMS and Dr. Col Deshpande and Dr. G. V. Rao - president and CEO of Vision 2020 : Right to Sight India programme were our faculties for the workshop. Their presence made a big difference to the deliberations. Our sincere thanks to all the faculties.
