

Tejas Eye Hospital Run by Divyajyoti Trust

Suthar Faliya , At & Po. Mandvi , Dist. - Surat - 394160

Telephone No. 02623 - 221180, 221090

News Letter - July 2015

The rising trend has continued this month also. Is this indicative of good acceptance of our service by the community? When patients and relatives praise the politeness and behaviour of the staff, we feel good. However, this increases our responsibility to continue to prove ourselves in the acid test of the patient satisfaction. Dr. Shilpa and Dr. Sheetal are back after their short term training and are busy managing their own clinics.

We have started ROP screening twice in a month in two places – Shrimad Rajchandra Hospital, Dharampur and Gram Sewa Trust Hospital, Kharel. We have found four new born babies with ROP in two months and lasered them. One baby with stage IV had to be sent to higher centre. We are happy to be able to manage ROP and help the unlucky pre term new born babies.

Two qualified optometrists have joined us. We hope to get involved in the training activities of paramedics more intensely and the presence of these two will help us move in that direction.

We had applied for registration as eye bank. Upon the reminder from the clerk in the dept. of medical education at Gandhinagar, we realised that we already had the permission of eye bank. At the time of registering ourselves with the authorities under Human Organ Transplant Act, they have already given us the recognition as eye bank. Now, we have initiated the process of tie up with Lokdrashti eye bank which is an Eye Donation Centre. One more DSEK procedure was carried out this month.

We have started one year fellowship in cornea from this month. Dr. Darshan Kalaigar from Surat has joined us for the cornea fellowship. We are sure of doing a good job with the help of Dr. Rohan Thakkar and Dr. Sonia Kothari in addition to day to day inputs by Dr. Rohan Chariwala.

Dr. Akash Shah from Vadodara completed his SICS training this month and Dr. Pathik Barwaliya from Surat completed his phaco training this month. Both were happy. The short term training in SICS & Phaco are booked till end of February and many more enquiries are there. One year comprehensive training and cornea fellowship is also being sought for by many students. Dr. Rohan and Dr. Sheetal have proved their worth as teachers also. Divyajyoti trust is lucky to get such good academicians.

Dr. Rohan attended the eyeexcel training – the training of trainers organised by Aravind at Madurai. We are a part of the Global sight initiative by SEVA, USA. H. V. Desai eye hospital is our mentor and we are one of the five mentee hospitals. We hope to grow in all the spheres of eye care with the help of this support.

Dr. Dhavat Sukharamwala has gone to H. V. Desai eye hospital, Pune for two months training in medical retina. Yatin Mistry – our eye bank technician was sent to EBCRC, Mumbai for one week training in eye banking.

Dr. Uday did a clinical audit of Mathur eye clinic, Meerut towards the end of the month at the suggestion of Mission for Vision from Mumbai. As always, it was a learning experience. Dr. Uday had gone to Hyderabad for web seminar on “OT management” organised by CIPLA as a part of LIVEWIRE – infection control series that Dr. Amish and Dr. Uday are doing with them.

A pain management workshop was held by IMA Mandvi in our meeting hall. The workshop was attended by nearly 30 delegates – a good number for a small branch like Mandvi. We will allow IMA Mandvi to use our conference room on a regular basis.

Some finishing jobs are still going on in the new building. However, the staff have occupied the quarters allotted to them and are very happy with the facilities offered. Our objective was to provide good facility so that they can work peacefully without worries about the residential arrangements. We have started using the meeting room in the new building.

Deepak Prajapati from our optical shop went to “The Sukharamwala Optical”, Surat during the month for one week exposure in qualitative improvement of our optical preparation and understand sales technique. So, now all the three staff members in optical shop have understood the quality aspect and are happy. We are thankful to the Sukharamwala optical house for providing our workers this opportunity.

The Umprada and Mangrol project is going on well. The field workers are putting in hard work to move forward. Daily close to 100 fundus photographs are being taken and are graded the next day by the Ophthalmologist at the base hospital. Due to rains, the pace had slowed down during the month. We hope to finish the survey by the end of August. However, the fundus photography will take much longer. Patients who are identified to have abnormality in the retina based on fundus photography are coming to the base hospital and we are very happy about it.

Blind children – 20 this time are enjoying themselves. People in the town are offering them something or the other every now and then. They are really lucky to get the support. We hope and pray that they become self sufficient when they grow up. Our efforts will be there in that direction.
