Suthar Faliya , At & Po. Mandvi , Dist. - Surat - 394160

Telephone No. 02623 - 221180, 221090

News Letter - November 2017

HOSPITAL:

Second time this year, the performance crossed 1000 mark. Now, the work flows at a constant pace and it helps maintain the protocols better.

Two Ophthalmologists have joined our team. We are now 11 strong. One more optometrist has joined us. Now, there are two optometrists working with us.

We celebrated world diabetes day by organising screening for DR at Mandvi base hospital and at four CHCs where we are working with PHFI and Govt. of India for DR activities. A session on awareness generation for DR was also organised at all these places.

A booklet for awareness generation on diabetes and diabetic retinopathy has been prepared and was made available in printed format in Gujarati during the month for free distribution to diabetic patients under DR project.

Screening of Maliba university college students was organised on the eve of birthday celebration of their major donor. We examined more than 1100 students on that day.

At the suggestion of Mission for Vision a truck driver's screening camp was organised in Surat for Bridgestone tyre company. We examined nearly 100 truck drivers.

A school screening in Karcheliya was organised – we examined more than 1000 students there.

NETRAJYOTI TRAINING CENTRE:

Dr. Bhumika Savani from Surat has completed her short term phaco fellowship during the month.

Dr. Sonali Bhonsle has joined her two months fellowship in SICS from this month. This will be followed by one month phaco training.

Dr. Khushboo DHINGA has joined us for her two months fellowship in Medical retina. She will be taking SICS and phaco training also, in short, she will be here with us for five months.

Students of new batch of vision technicians and ophthalmic nursing are performing well. The batch seems to have picked up basic skills nicely.

Diwali Ba optometry college has become functional from this month. Being our first year, there are only six students with us. We have decided to teach them spoken English and computer skills which is not a part of their curriculum.

A CME on Vitamin A distribution to the Anganwadi children for senior staff was organised with Dr. Shilpa Bhatte from Vitamin Angels as the speaker.

WORKSHOPS AND CONFERENCES:

Dr. Rohan was invited in the NPCB WHO SEARO experts group meeting to develop national action plan for achieving universal eye health for all between 9 – 10 Nov. 17 at AIIMS , New Delhi.

Dr. Rohan Chariwala and Ramesh Vasava attended the infection prevention workshop organised at H. V .Desai eye hospital, Pune under SCALE project on 4-5 Nov. 17.

Sunita Vassava, Dipika Vasava and Jayshree Gamit attended the workshop titled “Standard Protocols for Operation Theatre Technicians” at Bhuvaneshwar organised by Vision 2020:Right to Sight India programme with the help of LVPEI Bhuvaneshwar unit between 4-5 Nov. 17.

Satellite centres:

Work at Vyara satellite centre is now steadily picking up – we have performed close to 50 surgeries per month over there in last 4-5 months.

Netrang satellite centre is also performing well and 30-40 surgeries are taking place monthly.

Now, we are ready to inaugurate Uchchal vision centre. The staff who will be posted there has completed his training satisfactorily. We have to get a date from Col. Dr. Deshpande sir for inauguration.

Vivekanand Pragnya Chakshu Bhavan:

Two of our hostel inmates participated in the state level Khel Mahakumbh.

GENERAL:

Mr. Tapas Satpathy and Mr. Vikram from American India Foundation Ahmedabad office visited us as a part of their due diligence process before releasing donor advisory funds. Dr. Shilpa Bhatte from Vitamin Angels with her colleagues visited us for training of our team and Vitamin A distribution to the under five kids of migrant sugarcane workers. They had a wonderful stay and after visiting the fields, they were convinced that the distribution that we have planned is worth all the efforts.

We have installed a face reader for attendance marking – we felt that face reader is better than thumb impression. It really takes couple of seconds to recognise face. When the whole world is using technology, there is no point in keeping away from the same. It makes our life easy.
